RE: NUVIGIL™ (armodafinil)
FDA Docket No.:

Attention: Beverly Friedman

UNITED STATES PATENT AND TRADEMARK OFFICE

In re Cephalon Inc. :
Request for Interim Patent Term Extension : **ORDER GRANTING**
U.S. Patent No. 4,927,855 : **INTERIM EXTENSION**

On May 7, 2007, Cephalon, Inc., an agent of Laboratoire L. Lafon, the owner of record in the United States Patent and Trademark Office of U.S. Patent No. 4,927,855, filed an application under 35 U.S.C. § 156(d)(5) for an interim extension of U.S. Patent No. 4,927,855. The patent claims the active ingredient armodafinil in the human drug product NUVIGIL™ and a method of use of said product. The application indicates that a New Drug Application for the human drug product NUVIGIL™ (armodafinil) has been filed and is currently undergoing regulatory review before the Food and Drug Administration for permission to market or use the product commercially.

Review of the application indicates that except for permission to market or use the product commercially, the subject patent would be eligible for an extension of the patent term under 35 U.S.C. § 156, and that the patent should be extended for one year as required by 35 U.S.C. § 156(d)(5)(B). Because it is apparent that the regulatory review period will continue beyond the original expiration date of the patent (May 22, 2007), interim extension of the patent term under 35 U.S.C. § 156(d)(5) is appropriate.

An interim extension under 35 U.S.C. § 156(d)(5) of the term of U.S. Patent No. 4,927,855, is granted for a period of one year from the original expiration date of the patent, i.e., until May 22, 2008.
